STOP PRESS

To all our good friends and supporters I am delighted to inform you that Rhonda and I will be back in Kon Tum in late June this year. We have two major projects to be undertaken. The first is to completely renovate the kitchen, dining room and food storage rooms at Vinh Son 4 orphanage. The second, which is a first for ASK&VSO is to install a well in a village that will provide clean, filtered water for all the families in that village.

As with all our missions to Kon Tum, it will be great to see such projects reach the desired outcome and we can return home knowing that, with the wonderful support of our donors, we have improved the lives of the children from the orphanage, and the wider population in the remote villages. I will look forward to posting my report when I return.

Yours sincerely

Derek Smith
